The Organ in the German B formed Church.

Having heard of the new organ just completed at Rev. P. Herbruck's church in our city, we embraced the opportunity afforded us yesterday by a friend, an export in the business, to visit the church and had the pleasure while there of listening to its fine tone. The instrument certainly flils the house magnificently with its heavy and light notes and is undoubtedly well qualified to fill the wants of the congregation. We understand a concert is to be given in the church on Treesday evening. May 8th, with aview of exhibiting the power and capacity of the instrument. We learn two or three distinguished organists from Pittsburgh will ansist to make the occasion one of interest and pleasure.

This fine instrument was constructed by Mr. J. W. Barber who has permanently established himself in our city and we trust our citizens will not fail to attend the concert and show an appreciation and proper regard for the success of the enterprise. The organ has two Manvals and twenty stops with heavy pedal.
